RE: FGT Response to EPA Information Request (Brooker Incident)

Dear Mr. Taylor:

The purpose of this letter is to supplement FGT's response to provide job description information with respect to certain preparers, as follows:

Mr. Dennis Alters, Director of Facility Planning for FGT: responsible for overall supervision and direction of the Facility Planning Team, which develops and coordinates pipeline projects, including project scopes and cost estimates, as well as developing and running pipeline model simulations and providing system analysis.

Mr. Gary Maestas, Central Florida Area Director for FGT: responsible for the operation and maintenance of pipeline and compression station assets in the Central Florida Area, including oversight of safety, compliance, reliability, organizational excellence, financial performance of the covered area and supervision of personnel responsible for the day to day operation of area assets.

Please do not hesitate to contact me should you have any question.

Respectfully submitted,

Kevin P. Erwin
General Counsel
Florida Gas Transmission Company, LLC
